

SHRUTI DHERE

Java Full Stack Developer

Phone: +91 7499210447 — Email: dhereshruti351@gmail.com

LinkedIn: linkedin.com/in/shruti-dhere-4191bb286 — GitHub: github.com/ShrutiDhere

LeetCode: leetcode.com/u/shrutidhere7475 — HackerRank: hackerrank.com/profile/dhereshruti351

Portfolio: lighthearted-valkyrie-147be1.netlify.app

Location: Pune, Maharashtra

Professional Summary

Java Full Stack Developer with hands-on experience in building scalable backend applications using Java, Spring Boot, Microservices, and RESTful APIs. Skilled in designing distributed systems, implementing secure authentication using JWT and Spring Security, and optimizing backend performance. Proficient in database management, API development, and clean architecture principles. Seeking Backend Engineer / Java Developer opportunities in product-based and scalable technology environments.

Technical Skills

Programming Languages:	Java, SQL, JavaScript
Frontend Technologies:	HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, jQuery, AJAX
Backend Technologies & Architecture:	Spring Boot, Spring MVC, Spring Security, OAuth2, Hibernate (ORM), JPA, Spring Data JPA, REST APIs, Microservices Architecture, JWT Authentication
Database:	MySQL, PostgreSQL
Tools & Technologies:	Git, GitHub, Maven, Postman, Docker, AWS (EC2, S3), Swagger, CI/CD (Basic), Linux (Basic), JSON, Eclipse, IntelliJ IDEA, Spring Tool Suite (STS)
Core Concepts:	System Design (LLD & HLD), Distributed Systems, Scalability Concepts, API Gateway, Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, MVC Architecture, API Design Principles

Projects

AI-Powered Smart Ambulance Tracking System

Java, Spring Boot, Microservices, MySQL, Google Maps API

Project Source Code: github.com/ShrutiDhere/SmartAmbulanceTrackingSystem

- Designed a distributed microservices-based emergency response system capable of handling 200+ concurrent requests with optimized routing logic, reducing ambulance dispatch latency by 35%.
- Developed fault-tolerant backend architecture with service isolation and failure handling to ensure high availability during partial system outages.
- Built secure RESTful APIs using layered architecture (Controller–Service–Repository) with JSON-based communication and optimized request processing.

CodeHire AI: Smart Resume Analyzer

Java, Spring Boot, MySQL, NLP API

Project Source Code: github.com/ShrutiDhere

- Developed an AI-based resume analysis system for automated candidate evaluation, ATS scoring, and skill-based job role recommendation.
- Implemented NLP-based keyword extraction and semantic matching between resumes and job descriptions to improve matching accuracy.
- Built RESTful APIs for resume parsing, processing, and structured JSON response generation with optimized backend performance.

Experience

Software Developer Intern — Skylark (Madhushri Foundation)

Jan 2026 – May 2026

- Designed and implemented RESTful APIs using Java and Spring Boot, contributing to a microservices-based backend architecture for a real-time web application.
- Developed and integrated backend services for request processing, improving system modularity and enabling scalable service communication.
- Built responsive frontend modules using HTML, CSS, Bootstrap, JavaScript, and AJAX for dynamic data rendering and improved user interaction.
- Performed API testing and validation using Postman, ensuring accurate JSON request-response handling and reducing integration issues.
- Assisted in debugging, performance tuning, and production issue resolution, improving overall system stability and reliability.

Education

Master of Computer Application, Pratibha Institute Of Business Management, Chinchwad Pune 2024 – 2026
CGPA: 7.68 / 10

Bachelor of Computer Application, Prof. Ramkrishna More College, Akurdi Pune 2021 – 2024
CGPA: 7.91 / 10

Higher Secondary (12th), Camp Education Nigdi, Pune 2019 – 2021
Percentage: 75.17%

Secondary School (10th), Kanya Vidyalay Dehu, Pune 2018 – 2019
Percentage: 75.40%

Certifications

- Software Developer Intern Certification – Skylark, Madhushri Foundation
- Java Full Stack Certification – Java By Kiran Academy
- Advanced Database Management System (ADBMS) Certification – MKCL ERA
- Foundation of Digital, Social Media Marketing Certification – MKCL ERA

Achievements

- Developed scalable backend applications using Spring Boot and Microservices architecture.
- Implemented secure REST APIs with JWT authentication and layered architecture.
- Solved 300+ coding problems across LeetCode and HackerRank platforms.
- Built real-time projects focusing on distributed systems and backend optimization.
- Gained hands-on industry experience during Software Developer Internship at Skylark.

Soft Skills

- Problem Solving & Analytical Thinking
- Team Collaboration (Agile Environment)
- Time Management & Ownership
- Attention to Detail & API troubleshooting
- Debugging production issues & Root Cause Analysis
